EDUCATION

2021 – 2026

**Turkmen State University
named after Magtymguly**

LANGUAGES

English: Advanced (C1-C2)

Professional working proficiency

Russian: Intermediate

Conversational level

EXPERIENCE

January 2024 – present

Android Developer Specialist

Gerekli Hyzmat (a.k.a. TmCars)

- Led Android application development as primary responsible developer for a comprehensive music platform
- Architected and implemented robust local database systems with seamless online content integration
- Delivered high-impact results: Developed music application (Aydymcom) achieving 1M+ downloads
- Engineered efficient media solutions: Implemented video playback and storage mechanisms using ExoPlayer
- Built real-time audio streaming services with advanced background playback capabilities
- Collaborated effectively within large, cross-functional teams using Agile methodologies
- Maintained code integrity through version control systems (GitHub, GitLab) and facilitated smooth team collaboration
- Optimized app performance by implementing strategic caching mechanisms to reduce data usage
- Ensured code quality through rigorous unit testing and continuous integration practices

February 2022 – December 2023

Android Developer

Payhas Merkezi (a.k.a. KIP engineering)

- Launched professional career as Junior Android Developer, successfully delivering 2 complete applications
- Developed technical expertise primarily in Java while mastering essential Android libraries
- Built sophisticated chat application using WebSocket technology with integrated local properties
- Gained database proficiency across multiple technologies: Room, SQL, and Realm
- Mastered Modern Architecture patterns: Specialized in MVVM while gaining familiarity with MVC and MVP
- Focused on code quality: Applied clean code principles and debugging techniques to create readable, testable applications

TECHNICAL SKILLS

- **Programming Languages:** Kotlin, Java
- **Android Development:** MVVM, MVP, MVC, Clean Architecture
- **Libraries & Frameworks:** ExoPlayer, Room Database, WebSocket, Retrofit
- **Development Tools:** Android Studio, Git, GitHub, GitLab
- **Database:** SQLite, Room, SQL Realm
- **Testing:** Unit Testing, Debugging
- **Other:** Agile Methodologies, Video Content Creation
